

Instructions | How to Find Out Your Device's Bluetooth Version

To use the Brother Skitch PP1 embroidery machine, you need a smartphone or tablet with Bluetooth version 5.0 or higher. Unfortunately, you can't check your Bluetooth version directly on your device. Please follow these steps:

For Android Devices:

Enter “[Device Name] specs” in Google or any search engine. Replace [Device Name] with your smartphone/tablet model, e.g., “Samsung Galaxy S10 specs”.

The device's specs sheet will show the Bluetooth version.

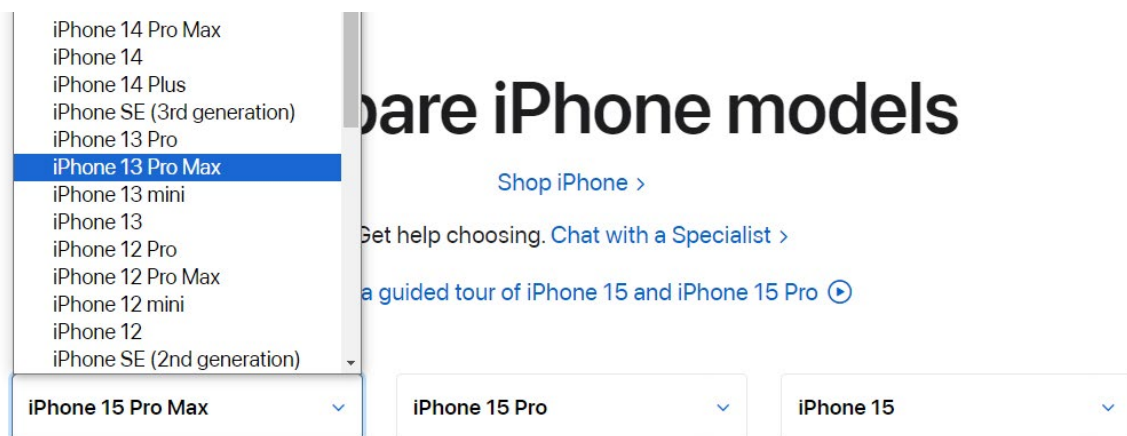

For iOS Devices:

Visit the Apple comparison page.

For iPhone: <https://www.apple.com/iphone/compare/>

For iPad: <https://www.apple.com/ipad/compare/>

Select your iPhone/iPad model from the dropdown menu in one of the columns.

Scroll down the page to the **"Cellular and Wireless"** section and look for the Bluetooth version in the column where you selected your device name.

iPhone 15 Pro Max	iPhone 15 Pro	iPhone 15
Cellular and Wireless		
GSM/EDGE	GSM/EDGE	GSM/EDGE
UMTS/HSPA+	UMTS/HSPA+	UMTS/HSPA+

Express Cards with power reserve	Express Cards with power reserve	Express Cards with power reserve
Wi-Fi calling ⁶	Wi-Fi calling ⁶	Wi-Fi calling ⁶

Please note:

The Bluetooth version **cannot** be updated as it depends on the built-in hardware. **If your device does not have at least Bluetooth 5.0, you will not be able to use the Skitch PP1 embroidery machine with it.**
